I come from Finland, a little independent country in Scandinavia. The area is almost the same size as all of the New England States and the States of New York, New Jersey, and Maryland together. The neighbor countries are Sweden, and Norway on the west and Soviet Union on the east. The population is small, only about 5.7 million people.

Finland has four seasons, as you have here. The winter is long and cold, and the summer is short, but warm. Beautiful in the Finnish nature are the lakes; there are tens of thousands in Finland. In the summers, you can see the Midnight Sun that

doesn't set at all, especially in the northern part of Finland, called Lapland.

Finland is known as a strong winter sport country, such as ski jumping and cross country skiing. Maybe you have heard about the Sauna Bath. That is an old Finnish custom done a couple of times a week.

I have had many new experiences in your country. I like your little Southtown with those beautiful hills all around. I'm glad I got to know you.

MARJA
