

Richard C. Ashley

Times slowly passed us by
 but we will cherish the memories.
 We've grown and learned so much
 we didn't even realize.
 Now we move on, to learn and grow
 more and more each day,
 Make new friends, meet new people
 See something different every day.
 From 8 to 3, what will it be like?
 We ask those who we think would know,
 but there is no answer.
 For one thing we've learned is that we all are different.
 We all will move on and go our own ways
 and experience different feelings
 about leaving our high school years behind us.
 But we will remember those who took their own path in life,
 And hope that one day we will all meet again.
